I. Brief description of personal feat

Comrade Davydok is devoted to the Lenin-Stalin Party and the Socialistic Motherland. He participates in the Patriotic War against German invaders since 25th February 1942. He has completed 75 successful night flights aimed to destroy the vital means of the weapons and machines of the enemy and 38 successful day flights for the reconnaissance of the frontline of the enemy's defense. Especially successful flights took place on the following dates:

On the night of 28th July 1942 bombs were dropped on the Kerch peninsula in the Enikal district on an enemy's Antiaircraft battery; the bombs' explosions were visible and the Antiaircraft battery ceased fire. This was confirmed by the flying crews following.

On the night of 31st July he performed a bombardment on the Kerch peninsula in the district of Bagerovo on the enemy's headlight which was emitting light; after the bombardment the headlight stopped working. This was confirmed by the crews behind.

On the night of 5th August, bombs were dropped on the Timoshevskaya district on a convoy of enemy's automobiles, the explosions of the bombs' direct hits were visible as well as the fire. This was confirmed by the crew flying behind: Pilot Vinogradov and Bombarder's Shooter Yurenev.

On the night of 10th August, bombs were dropped on the enemy's forces build-up on a bank of the river Protoka in the area of the Station Slavyanskaya. The direct hits of the bombs were visible.

On the night of 10th of August he dropped bombs on the area of the Station Popovichi on a moving motor-trolley which was emitting light with its projectors; the direct hits of the bombs were visible on the road within 10 – 15 meters. It was confirmed by the crew that flew behind, Pilot Vinogradov, that the car stopped its movement and there were no more lights. All following combat flights were also completed successfully by him. For the effective bombardment, he is awarded the Order of the "RED BANNER" and money in the sum of 6000 Rubles.

On the 12th of August during the execution of a special combat mission, the plane piloted by Comrade Davydok was attacked by two enemy's ME-109 planes and as a result of this Comrade Davydok's plane was damaged. Comrade Davydok with skillful maneuvers, managed to save the plane, led it out from the hits and successfully landed in a mountain region, organized repair and returned to his aerodrome.
